“

Since installing **IMS**, our **cash flow has increased over 40%**, our AR is easier to manage with a billing module which allows us to follow-up, re-bill, and re-print claims with a single click. I've **saved more than \$60,000 in dictation fees** a year. Using **IMS** - we've been more successful than ever before.

- Steven Gest, M.D., Owner, Emeryville Occupational Medical Center, Emeryville, CA

”

**Intelligent Medical Software (IMS)** is a fully integrated (one log-in) Practice Management and Electronic Medical Record software suite designed to deliver realizable ROI and improved patient care. **IMS** executes these functional priorities by streamlining the entire front-to-back office workflow, improving efficiencies, increasing reimbursement and collections, reducing liability risk, and lowering operational expenses for medical practices.

#### Intelligent Medical Software (IMS):

- Improves patient care
- Reduces costs
- Improves reimbursement
- Ensures scalability
- Enables information availability
- Assures information accuracy
- Expedites clinical decision making
- Fosters communication
- Mitigates risk & medical errors

#### FROM YOUR PERSPECTIVE...

##### Patient Care

- Improve medical outcomes and patient care
- Leverage information to improve clinical decision making
- Enhance quality patient dialogue
- Fast, complete and legible visit note entry (4 flexible methods)
- Single click access to entire set of patient information

##### Financial

- Streamline financial operations
- Receive a significant return on your technology investment
- Generate financial and collection reports
- Assurance of accurate coding
- Increase revenues & cash flow
- Eliminate soaring dictation and transcription costs
- Decrease liability exposure

##### Operations / Workflow

- View & control the entire flow of patients, procedures, providers, offices, rooms and resources centrally.
- Maximize information availability & rapid staff communication.

##### Technical / IT

- Secure (HIPAA compliant)
- Single database, multi-office solution
- Robust and rugged, yet flexible
- Scalable
- Accessible from anywhere
- Seamless Integration

##### Multi-Specialty

- Scalable from single provider to large multi-specialty groups
- User-defined, specialty specific templates

# IMS

Intelligent Medical Software

My bad-debt write-offs have been **reduced over 90%**. Pre-IMS, we had an **average of \$80,000 per month** outstanding in charges waiting for referral. Since implementation of **IMS** we now regularly maintain no more than \$400 per month.

- Julia Ziehm, Billing Manager, Mid Michigan Cardiology Associates.

## Features...

### Scheduler

Simplify workflow with the most versatile appointment scheduler on the market.

### Authorization/Referral Tracking

Prevent unauthorized visits. Aids in ensuring timely approval of appointments & procedures.

### IVR Services

Minimize "no-shows" with automated, personalized appointment reminders linked with scheduler.

### Auto Check-In

Decrease staff workload by allowing patients to check themselves in and electronically complete required documentation.

### Check-In / Check-Out

Actively manage patient, doctor, room and procedure flow from a single screen.

### Patient Portal

Link patients with their providers with a comprehensive and secure homepage.

### EMR (Patient encounter)

Improve your coding accuracy with full view of past encounter information and automated clinical guidance. The fastest visit note data entry system on the market.

### Prescriptions

Prescribe with speed and confidence. Automated drug interaction, allergy and diagnosis contraindication checks with formulary management.

### Lab Orders & Tracking

Electronically order and receive lab results for automatic inclusion in patient record. Track status of lab orders.

### Health Maintenance Reminders

Improve clinical outcomes through automated health reminder alerts.

### Drug Dispensary

Manage, track and auto-bill for meds dispensed through your office.

### Document Management

An electronic patient records file room (without the floor space)

### Billing & Collections

Quickly and accurately post charges, generate claims, reconcile payments, and minimize bad debt through collection tracking. See why billing services are switching to Medtab...

### My Tasks

Eliminate "sticky notes"! Effectively manage and prioritize pending tasks.

### Letter Writing

Mail-merge on steroids!

### Form Filler

Conquer your avalanche of forms. Electronically auto-fill any form in your office.

### Fax Management

Go paperless. Receive, distribute and respond to all faxes... Electronically.

### Scan Module

Scan and index any paper documents and forms.

### Reports / Report Builder

Analyze medical, financial and marketing trends with a library of over a hundred flexible reports.

## About Meditab Software, Inc.

Founded in 1998, Meditab has been built from the ground up by pharmacists and physicians. Meditab Software is a unique provider of intelligent, integrated, innovative, and intuitive solutions for the healthcare industry. The solutions available through Meditab allow you to take full control of your processes and information to create and use powerful healthcare knowledge – knowledge that can make a significant difference in the success of your organization.

### Meditab offers industry leading solutions for:

- Single Medical Offices & Multi-Specialty Groups
- Pharmacies (Independent, Closed Shop & Chains)
